DO NOT Bag Items!
Place all items loose
in your recycling bin.

Why it's important to recycle right:

Help us keep the recycling process strong — only recycle the items we ask! Our list reflects the items that manufacturers need the most to make new goods. If you place an item in your recycling bin that is not accepted, it will contaminate other items and slow down the recycling process. If you're unsure, please check our website or give us a call.
